## SPIRITUAL BEING BECOMING

Pickwick Publications, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.It is reported that there are as many as 100 billion neurons that make up the human nervous system. This system is incredibly complex, and yet it is a fundamental part of what makes us who we are. Yet, there is far more to human beings than biology. Many academic disciplines study the human condition and there are many schools of thought within that study. We must also appreciate that the study of human nature did not begin in contemporary times. History, particularly Western Christian history, is full of texts that offer detailed explorations of the human condition. However, no consensus has yet emerged. Consensus or not, those working towards religious and spiritual formation are tasked with pursuing the transformation of their communities. This book is an attempt to provide some of the background to support this ministerial work. It seeks not only to offer a fuller understanding of some of the common views of human nature, but also insights into how we might utilize this knowledge in our ministries--ministries that strive towards the spiritual being and becoming of our world. With stellar scholarly work and profound pastoral sensibilities, Eric Kyle masterfully guides us through the perspectives of theologians, psychologists, mystics, neuroscientists, and many others whose deep curiosity about human beings, mystery, and the universe have driven them to try to answer questions of ultimate concern. Ultimately, Kyle weaves these many threads together into a fresh powerful model of Christian spiritual formation. This book offers a treasure-trove of possibilities for understanding, teaching, and engaging in the formation of the Christian spiritual life. --Andrew Dreitcer, Director of Spiritual Formation, The Claremont School of Theology, Claremont, CA An incredible...
